Let's move.

COLLECTION | COLECCIÓN 2021

DANS TOUTES LES FAMILLES.

En casa en todas
las familias

L'histoire familiale devient la réalité de la marque.
Un petit événement sensationnel a fait de Winora une marque de tradition. Il y a près de 100 ans, Engelbert Wiener, son fondateur, n'a pas seulement créé une entreprise et fabriqué des vélos. Il a jeté les bases de quelque chose qui est aujourd'hui indispensable. En 1921, il fabrique de ses mains les premiers vélos enfants pour ses deux filles, Thea et Martha.

Une histoire d'innovation
Ce qui a rendu cette entreprise si exceptionnelle, c'est qu'à cette époque-là, il n'existait pas de vélos produits en série pour les enfants et les adolescents. Engelbert Wiener a été le premier à rendre ce moyen de locomotion accessible à toutes les générations. Il voulait que les autres puissent se déplacer comme lui et son frère, avec qui il a été sacré champion de sprint sur piste avec l'équipe allemande (constituée de 4 athlètes). Il souhaitait mettre cette expérience unique et la sensation d'indépendance qu'offre le vélo à la portée de tous.

Dans toutes les familles
C'est cette petite anecdote qui est au cœur de la réalité de notre marque. Notre credo est encore aujourd'hui de rentrer dans chaque foyer avec nos vélos. Peu importe qu'il s'agisse d'une famille nombreuse ou d'un couple, d'une famille nouvellement fondée, d'une famille recomposée ou simplement d'une bande d'amis. La famille est l'endroit où vous vous sentez chez vous avec votre vélo WINORA.

Depuis plus
de 100 ans
Desde hace más
de 100 años

La historia de una familia se hace realidad en una marca
Una pequeña sensación hizo de WINORA una marca con tradición. Hace casi 100 años, el fundador, Engelbert Wiener, no solo comenzó una empresa y construyó bicicletas. Puso los cimientos para algo que es indispensable hoy en día. En 1921 construyó artesanalmente las primeras bicicletas para niños para sus dos hijas, Thea y Martha.

Una historia de innovación
Lo que lo hizo especial fue que en ese momento no había bicicletas estándar para niños y jóvenes. Engelbert Wiener fue el primero en hacer este tipo de movilidad accesible a todas las generaciones. Quería que otros pudieran moverse como él y su hermano, con quien había sido campeón de Alemania en pista por equipos. Quería poner a disposición de los demás esta experiencia única y la sensación de independencia que supone montar en bicicleta.

En casa en todas las familias
Esta pequeña anécdota es el corazón de la realidad de nuestra marca. Nuestra misión sigue siendo hoy en día estar en cada casa, con cada familia, con nuestras bicicletas. No importa si es una familia extensa o una pareja, recién fundada, reconstituida o simplemente entre amigos: la familia es donde tú te sientes en casa con tu bicicleta WINORA.

Le plaisir d'un
pilotage dynamique.
Diversión dinámica
garantizada.

BOSCH GEN 4

Héros de la gamme polyvalente

D'après le dicton, « Il faut s'arrêter quand on est top ». Nous voyons les choses différemment et préférons développer des vélos électriques avec des concepts intelligents qui vous permettent de prolonger votre plaisir de rouler en l'espace de quelques secondes. Avec nos nouveaux modèles Sinus iX et la dernière génération de moteur Bosch, vous pouvez commencer à tout moment, pour vos trajets quotidien ou pour le loisir, et bien sûr, vous n'avez pas à vous arrêter quand vous êtes au mieux de votre forme.

- › En comparaison avec le Gen 2
25 % plus léger, 48 % plus petit et moins de résistance au pédalage

La nouvelle génération du moteur Performance Line CX est non seulement 25 % plus légère et 48 % plus petite, mais elle offre également un confort de pilotage naturel grâce à sa faible résistance au pédalage.

Héroie de rango versátil

"Uno debe parar cuando está en su mejor momento", es el dicho popular. Nosotros lo vemos de forma diferente y preferimos desarrollar e-bikes con conceptos inteligentes que amplían el placer de montar en bicicleta en cuestión de segundos. Con nuestros nuevos modelos Sinus iX y la última generación de Bosch, puedes ponerte en marcha en cualquier momento de tu vida cotidiana y tiempo libre, y por supuesto no tienes que parar cuando estés en tu mejor momento.

- › Comparado con Gen 2
25 % más ligero, 48 % más pequeño y menos resistencia al pedaleo

La nueva generación del sistema Performance Line CX, no solo es un 25 % más ligera y un 48 % más pequeña, sino que también ofrece comodidad natural gracias a su baja resistencia al pedaleo.

SINUS

L'avenir s'écrit avec un « e »

L'avenir s'écrit avec un « e ». Selon l'Agence fédérale allemande pour l'environnement*, 82 % des émissions de CO2 sont actuellement causées par notre mobilité quotidienne. Quand une voiture émet 472 kg de CO2 lorsqu'elle parcourt un peu moins de dix kilomètres en environnement urbain, les vélos électriques n'en émettent que 13 kg. Donc, surtout en ville, tout plaide en faveur du passage au vélo. Prenons l'exemple de nos nouveaux modèles SINUS. Avec leur batterie Intube intégrée, les vélos SINUS sont non seulement bons pour l'environnement et extrêmement confortables, mais ils sont aussi très esthétiques.

Añádele una "e" al futuro

Añádele una "e" al futuro. Según la Agencia Federal Alemana del Medio Ambiente, el 82 por ciento de las emisiones de CO2 son causadas actualmente por nuestra movilidad diaria. Mientras un coche emite 472 kg de CO2 cuando viaja poco menos de diez kilómetros en un entorno urbano, la cifra para las e-bikes es de solo 13 kg. Así que, especialmente en la ciudad, todo habla a favor de cambiar a la bicicleta. Por ejemplo, nuestros nuevos modelos SINUS con baterías Intube integradas, que garantizan que las e-bikes SINUS, no solo son buenos para el medio ambiente y extremaWomente cómodas, sino también resultan atractivas por su diseño.*

TRIA

Veillez-vous asseoir

Veillez-vous asseoir. L'empreinte CO2 des vélos électriques doit également tenir compte des émissions qui se produisent lors de la production et l'élimination de la batterie. La bonne nouvelle est qu'elles sont déjà moindres après avoir parcouru une centaine de kilomètres en vélo électrique au lieu d'une voiture*. Et si le vélo est aussi confortable et pratique que nos modèles SINUS TRIA avec un cadre bas, une position assise droite et un frein à rétropédalage, même le vent de face et les montées ne sont plus un problème.

Toma asiento

Toma asiento. La huella de CO2 de las e-bikes también debe tener en cuenta las emisiones que se producen durante la producción y eliminación de la batería. La buena noticia es que ya están descargadas después de recorrer unos 100 kilómetros con la bicicleta eléctrica, a diferencia de un coche. Y, si la bicicleta es tan cómoda como nuestros modelos SINUS TRIA con barra en posición baja, posición de sillín vertical y freno de contrapedal, ni el viento de frente ni las subidas suponen ningún problema.*

YAKUN

Prêt pour la ville, la campagne et le bord de la rivière

Prêt pour toutes les catégories Sur des pneus larges de 27,5", pour traverser les champs ou se rendre au travail en un rien de temps : les vélos électriques sont non seulement bons pour l'environnement, mais aussi le moyen de transport le plus rapide, surtout sur de courtes distances allant jusqu'à 10 km. Et le meilleur : pas besoin de chercher une place pour se garer. Les nouveaux modèles Yakun offrent un équilibre optimal entre la maniabilité et les caractéristiques de roulage sur toutes les surfaces. De plus, leur puissant moteur Yamaha déploie toute sa puissance surtout au démarrage et dans les montées.

Lista para la ciudad, el campo y los arroyos

Lista para todas las categorías. Con cubiertas anchas 27,5 pulgadas para XC o para llegar rápido al trabajo: las e-bikes no solo son buenas para el medio ambiente, sino también el medio de transporte más rápido, especialmente en distancias cortas de hasta 10 km. Y lo mejor es que no hay necesidad de buscar una plaza de aparcamiento. Los nuevos modelos Yakun ofrecen un equilibrio óptimo de maniobrabilidad y características de rodadura para cada terreno. Y su potente motor Yamaha despliega su fuerza especialmente al arrancar y subiendo.

YUCATAN

L'appel des montagnes

Les montagnes nous font signe. Partout dans le monde, les gens se déplacent de la campagne à la ville. Pour la première fois dans l'histoire, plus de la moitié de la population mondiale vit désormais en ville. L'espace devient limité, les espaces verts se font rares. Quiconque recherche la nature, les montagnes, les lacs, les bois et les prairies, bref : les grands espaces, doit sortir de la ville. Quitter la ville et plonger dans le plaisir. Les vélos électriques Trekking de la série YUCATAN avec moteur Yamaha et un porte-bagages pour tout ce dont vous avez besoin pour un long voyage sont parfaits pour vous accompagner dans votre virée.

Ahora, te atraerán las montañas

Las montañas te están llamando. En todo el mundo la gente se traslada del campo a la ciudad. Por primera vez en la historia, más de la mitad de la población mundial vive en ciudades. El espacio se está volviendo limitado, la vegetación escasea. Cualquiera que busque lo salvaje, montañas, lagos, bosques y prados, en resumen: los amplios espacios abiertos, debe salir fuera de la ciudad para disfrutar. Las e-bikes de trekking de la serie YUCATAN con motor Yamaha y un portabultos para todo lo que necesita en un largo viaje son perfectos para viajar.

RADIUS

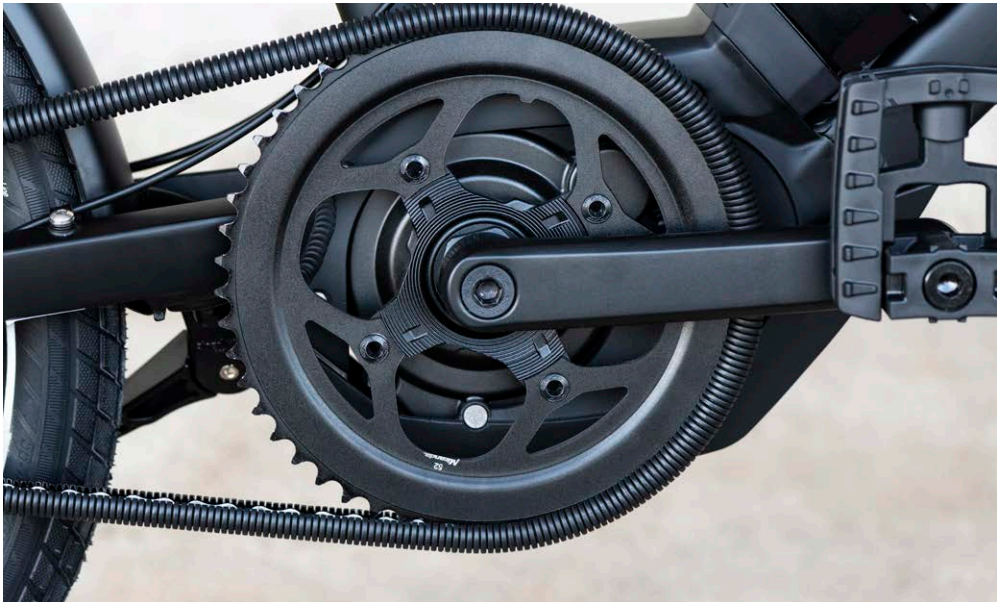

Des roues de 20 pouces pour rouler dans les grandes villes

20 pouces pour traverser la jungle urbaine. Parmi bien d'autres aspects, le manque d'espace est un effet secondaire de la croissance rapide des villes du monde entier. Et c'est dans ce contexte que les solutions intelligentes portent leurs fruits. Comme le RADIUS Winora avec son puissant moteur Yamaha. Le guidon se replie facilement à 90° et les pédales peuvent être rabattues. Le faible poids et la poignée de transport provenant de la connexion du tube supérieur et du tube de selle facilitent le transport. « Ce vélo est un kart », affirme la presse. Il est petit, agile, ludique, maniable et extrêmement pratique.

Ruedas de 20 pulgadas para el entorno de la gran ciudad

20 pulgadas para la selva urbana. Entre otros muchos aspectos, la falta de espacio es un efecto colateral de las ciudades de rápido crecimiento en todo el mundo. Aquí es donde las soluciones inteligentes muestran sus resultados. Como la Winora RADIUS con su potente motor Yamaha. El manillar puede plegarse fácilmente 90° y los pedales pueden plegarse hacia dentro. El bajo peso y el asa de transporte en la conexión del tubo superior y el tubo del sillín facilitan el transporte. "Esta bicicleta es un kart", dice la prensa. Pequeña, ágil, divertida, extremaWomente práctica.

TREKKING

Les vélos Trekking pour les cyclistes les plus actifs

Les vélos Trekking sont destinés aux cyclistes actifs. Design intemporel et classique. Rapport performance/prix exceptionnel. Haute qualité. Voici les principales caractéristiques de nos vélos Trekking modernes. Mais ils présentent bien d'autres atouts. C'est pourquoi les vélos Trekking WINORA deviennent le choix idéal si vous êtes un cycliste actif. Si vous aimez pédaler vous-même, sans assistance.

TOUJOURS RESTER EN SÉCURITÉ

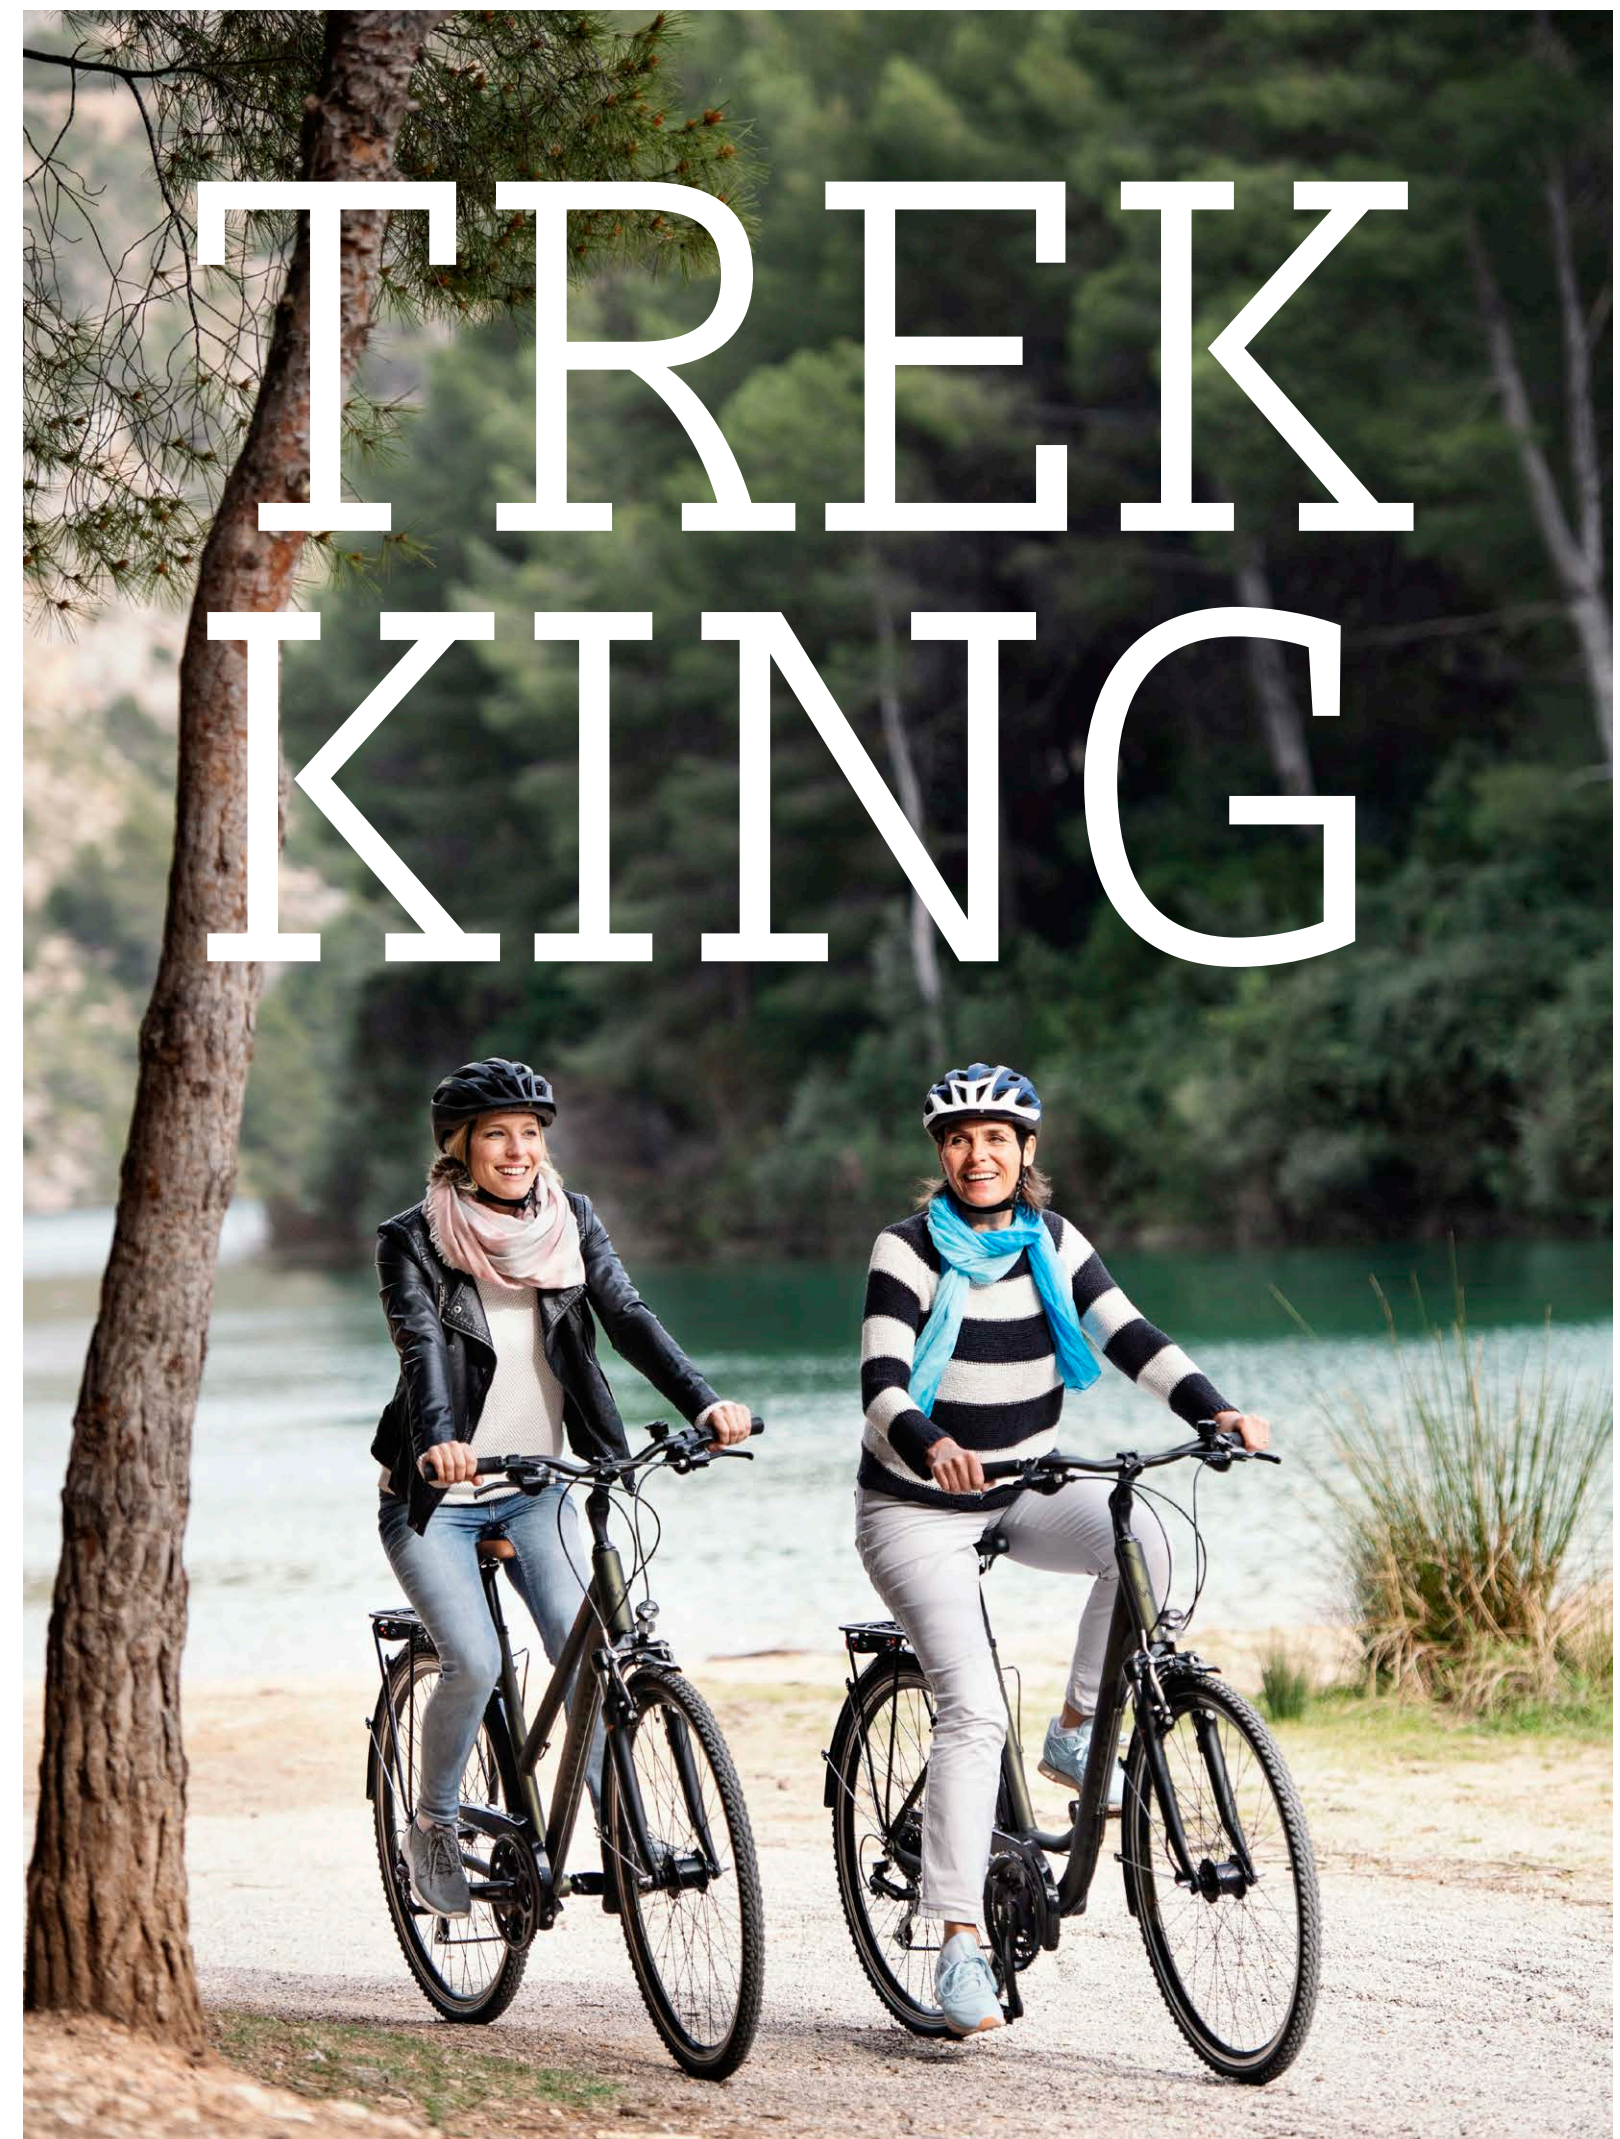

Un vélo Trekking vous permet de garder le cap même sous la pluie et dans la boue. Les vélos Trekking lisent la route et vous ouvrent la voie. Et ce, non seulement pour des randonnées sportives, mais aussi lors de tous vos trajets quotidiens. Un autre avantage du vélo trekking WINORA : son équipement complet de haute qualité, notamment ses freins à disque. Vous pouvez rouler en toute détente, quelle que soit la voie que vous empruntez.

Bicicletas de trekking para ciclistas activos

Bicicletas de trekking para ciclistas activos. Diseño clásico y atemporal. Excelente relación precio-rendimiento. Alta calidad. Estos atributos se aplican a nuestras modernas bicicletas de trekking. Y algunas otras características positivas. Por lo tanto, las bicicletas de trekking WINORA se convierten en la elección perfecta si eres un ciclista activo. Si te gusta pedalear por ti mismo y sin asistencia.

MANTÉN SIEMPRE LA SEGURIDAD EN EL RECORRIDO

Una bicicleta de trekking te mantiene en el camino, incluso si te encuentras con lluvia o barro. Las bicicletas de trekking suavizan las irregularidades del terreno para facilitarte el camino. Y no solo para viajes deportivos, sino también en todos tus recorridos cotidianos. Una ventaja adicional con la bicicleta de trekking WINORA: su equipamiento integral de alta calidad, por ejemplo con frenos de disco. Así te relajas, independientemente de dónde te lleve la carretera.

CITY

Le compagnon de vos aventures du quotidien

Vélo de ville ou vélo de tous les jours - peu importe le nom, une chose s'applique à tous les vélos de ce genre. Avec eux, les embouteillages ou les métros et trains de banlieue surchargés ne sont plus qu'un mauvais souvenir. En effet, avec les vélos de ville vous contournez la circulation au lieu d'y être coincé. Sur le chemin du travail, pour rendre visite à des amis, pour faire des courses ou pour toutes les balades quotidiennes, le vélo de ville est le compagnon idéal pour tous les trajets, courts ou longs. Et ils sont aussi élégants que fonctionnels.

PARFAITEMENT ÉQUIPÉ POUR LA VILLE

L'important sur un vélo de ville : avoir le bon équipement. Cela englobe un éclairage adapté à la route et des composants faciles à entretenir. Et bien sûr, un antivol, un casque et une protection contre le vent et la pluie. Installez-vous et lancez-vous, partez à la découverte de votre quartier avec le vélo de ville. Pour plus de plaisir dans vos aventures du quotidien. Vous roulez, de jour comme de nuit, pour le travail ou le loisir.

Compañera para la aventura de la vida diaria

Bicicleta de ciudad o bicicleta para todos los días: no importa el nombre, es algo que se aplica a todas las bicicletas de este tipo. Con ellas, los atascos de tráfico o los metros y trenes suburbanos atestados ya no son un problema. Porque con las bicicletas de ciudad te paseas alrededor del arroyo, en vez de cruzarlo. De camino al trabajo, a visitar a amigos, para dar un paseo o en todos los recorridos diarios, las bicicletas de ciudad son la compañía perfecta para todos tus desplazamientos, largos o cortos. Y son tan elegantes como funcionales.

PERFECTAMENTE EQUIPADO EN LA CIUDAD

Importante para cada bicicleta de ciudad: el equipamiento adecuado. Esto incluye una iluminación adecuada para la carretera y componentes fáciles de cuidar. Y, por supuesto, una cerradura segura, casco y protección contra el viento y la lluvia. Solo tienes que subir al sillín, salir y conquistar el barrio con la bicicleta de la ciudad. Para más diversión en la aventura de la vida cotidiana: día o noche, trabajo o diversión.

ENFANTS/ADS

Découvrir le monde avec un vélo Enfants ou Ados

Les vélos pour enfants et ados font partie de l'ADN de WINORA. Après tout, le fondateur de l'entreprise, Engelbert Wiener, a fabriqué de ses mains les tout premiers vélos pour enfants du monde, en 1921. Aujourd'hui, nos vélos pour enfants et pour ados perpétuent cette grande tradition. Ils permettent de se déplacer, d'être mobile et indépendant. Un vélo pour enfants ou ados WINORA est toujours là quand il faut ou quand il est temps de découvrir le monde.

QUALITÉ ET SÉCURITÉ AVANT TOUT

Qu'il s'agisse d'un vélo pour fille ou pour garçon, chez WINORA le crédo est : la sécurité d'abord ! Nos vélos pour enfants et adolescents convainquent par leur design, leur technologie de pointe et leur qualité. Parce que les enfants et les ados prennent du plaisir sur leur vélo quand ce dernier est pratique et sûr. Ils ont besoin d'un compagnon sur lequel ils peuvent compter à tout moment et en tout lieu. Pour se rendre en toute sécurité à l'école ou pour aller s'acheter une glace. Pour une grande liberté sur deux roues.

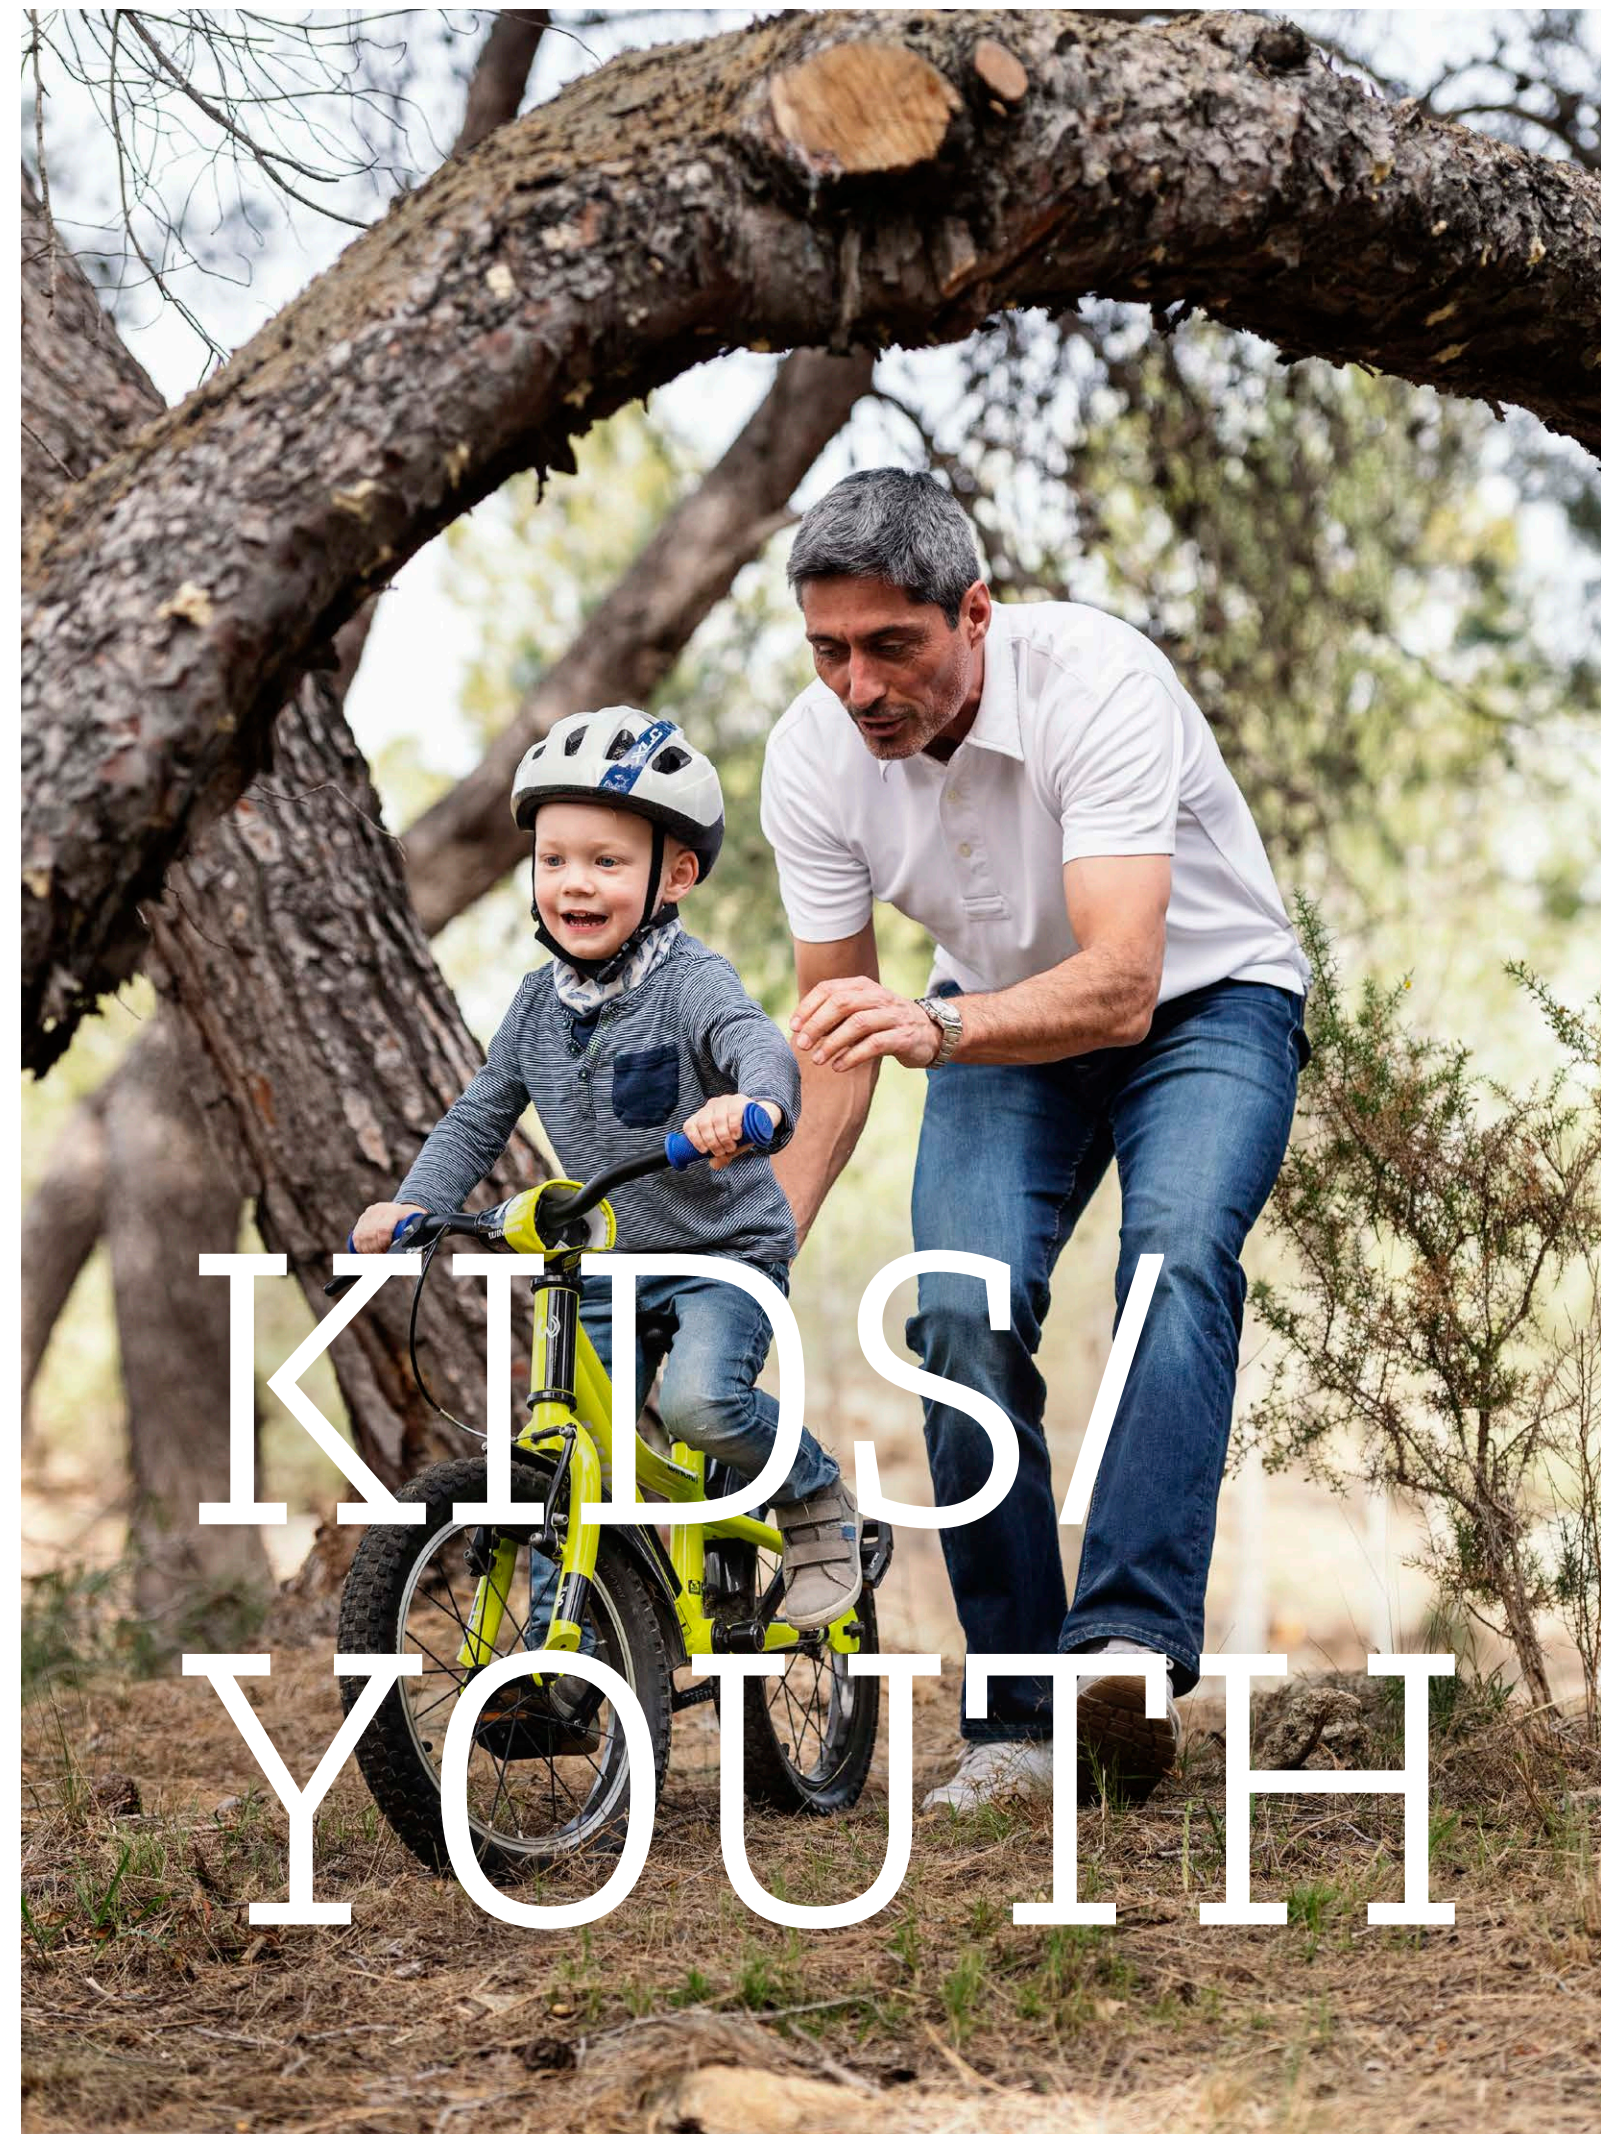

NIÑOS/JÓVENES

Descubre el mundo con una bicicleta para niños o jóvenes

Las bicicletas para niños y las bicicletas para jóvenes forman parte del ADN de WINORA. Después de todo, el fundador de la empresa Engelbert Wiener construyó a mano las primeras bicicletas del mundo para niños en 1921. Hoy en día, nuestras bicicletas para niños y jóvenes siguen conservando esta gran tradición. Permiten que los niños se muevan y sean independientes. Una bicicleta para niños o jóvenes de WINORA siempre está ahí cuando es necesario o cuando llega la hora de hacer una ruta para descubrir cosas nuevas.

CALIDAD Y SEGURIDAD EN PRIMER LUGAR

Para una bicicleta de niña o niño de WINORA lo más importante es esto: ¡la seguridad es lo primero! Nuestras bicicletas para niños y jóvenes convencer por un buen diseño, son de alta tecnología y de la mayor calidad. Porque los niños y los jóvenes se divierten sin preocupaciones en su bicicleta cuando es práctica y segura. Necesitan que la bicicleta para niños o jóvenes sea una compañera en la que puedan confiar en cualquier momento y en cualquier lugar. Para ir seguros al colegio, o para ir a comprar un helado. Para sentir una gran libertad sobre dos ruedas.

CATÉGORIES DE VÉHICULES

Categories of vehicles

Les véhicules de catégorie 0 sont généralement des vélos enfants ludiques 12" et des vélos enfants de 12" et 16".

Los vehículos de la categoría 0 suelen ser bicicletas de 12" para niños y bicicletas para niños de 12" y 16".

Les véhicules de catégorie 1 sont des véhicules conçus pour des infrastructures purement urbaines (surfaces bitumées).

Los vehículos de la categoría 1 son vehículos diseñados para infraestructuras puramente urbanas (condiciones de carretera).

Les cycles de catégorie 2 sont généralement les vélos, les vélos électriques et les vélos électriques grande vitesse de style ville, de trekking, cross-trekking ou vélos cargo, ainsi que les vélos junior 24" et les vélos enfants 20".

La categoría 2 incluye generalmente bicicletas, pedelecs y S-pedelecs al estilo de las bicicletas de ciudad, trekking, cross-trekking o de carga, así como las bicicletas junior de 24" y las bicicletas para niños de 20".

Les véhicules de catégorie 3 sont généralement des vélos électriques et des vélos électriques rapides qui sont des vélos de montagne destinés au cross-country, au marathon et à la randonnée, ainsi que tous les vélos de gravel, cyclo-cross et All-track.

Los vehículos de la categoría 3 son generalmente bicicletas, pedelecs y S-pedelecs que son bicicletas de montaña destinadas a XC, maratón y touring, así como las bicicletas de gravel, ciclocross y All Track.

Les cycles de catégorie 4 sont généralement les vélos, les vélos électriques et les vélos électriques grande vitesse de style VTT pour une utilisation all-mountain et trail.

La categoría 4 incluye generalmente bicicletas, pedelecs y S-pedelecs al estilo de las bicicletas de montaña diseñadas para uso all-mountain.

Les véhicules de catégorie 5 sont généralement des vélos électriques, des vélos électriques grande vitesse qui sont des VTT destinés à l'enduro, au freeride et à la descente/au dirtjump.

Los vehículos de la categoría 5 suelen ser bicicletas, pedelecs y S-pedelecs que son bicicletas de montaña destinadas a enduro, freeride y descenso/dirtjump.

Les véhicules de catégorie 6 sont généralement des vélos électriques grande vitesse de type vélo de course ou vélo fitness (vélo urbain)/course contre la montre/triathlon.

Los vehículos de la categoría 6 son generalmente bicicletas, pedelecs y S-pedelecs que son bicicletas de competición o fitness (bicicleta urbana)/contrarreloj/triatlón.
